

SNR Sons Charitable Trust

Sri Ramakrishna Educational Institutions

Serving the Divine by Serving Humanity

A man's measure is not the show of his strength or intellect but it is seen in terms of his sheer love for everyone beyond his family. His value is the strength of his commitments, the genuine nature of his character, the sincerity of his purpose and the courage of his convictions.

S.N.Rangaswamy Naidu was the one who served the divine by serving the humans. A man of great vision and an ardent devotee of the Sri Ramakrishna Paramahansa, S.N.Rangaswamy Naidu believed in the principle –

Service to Mankind is Service to God.

He envisioned that through quality education and healthcare, the lives of the needy and the poor can be elevated to high standards.

He wished to provide a better society and his four sons Sri Chinnasamy Naidu, Sri.P.R.Ramaswami Naidu, R.Doraiswami Naidu and Dr.R.Venkatesalu Naidu brought it to reality in 1970 by establishing SNR Sons Charitable Trust which now runs 16 institutions including a reputed multispecialty Hospital, Schools, Medical, Dental and Paramedical Institutes, Arts & Science colleges, Engineering colleges, Polytechnic college, Skill Training Institute and Sri Ramakrishna Vridhashramam (home for the aged). For more than 40 years, SNR Sons Charitable Trust has been uplifting the human spirit to its excellence.

When we look back on history, the 16 institutions of the Trust were built one after the other

by the Trustees, fulfilling the dream of the Founders. The trust focuses on serving the needy by offering healthcare services by establishing a thousand bedded Multispecialty hospital with advanced medical facilities and expert doctors catering to the healthcare needs of people. People from around the world

SNR Sons Charitable Trust always believes that by providing a robust environment for education with well qualified teachers to children and youth, quality citizens can be produced to propel our country to great heights.

are benefitted out of its service. The Trust which believes education as the best medium to make the society better, imparts quality education through its educational institutions. The Managing Trustee, D.Lakshminarayanawamy says "We at SNR Sons Charitable Trust always believe that by providing a conducive environment for education, sports and extra-curricular activities, we produce responsible citizens who can take our nation to great heights.

The doors to empowerment is opened wide to the youth at our institution and we are proud to say that we have been successfully producing skilled, committed and competent graduates who serve the nation and the world. They lift the banner of SNR higher."

The Ranks and Accreditations the SNR Educational Institutions have earned over the years from NIRE, NAAC and other academic bodies are evident that they are constantly moving ahead in all fronts.

The present Trustees of SNR Sons Charitable Trust R. Sundar, Joint-Managing Trustee, S. Narendran and V. Ramakrishna, Trustees all share the same vision of the founders and focus on bettering the services to the betterment of the society.

- D.Lakshminarayanawamy, Managing Trustee, SNR Sons Charitable Trust

Future-Ready Engineers Fostered by SREC

Sri Ramakrishna Engineering College (SREC) is one of the most sought after engineering institutions in the state of Tamil Nadu. The institution was conferred with the status of autonomy in the year 2007. It has been accredited by NAAC with 'A' Grade. It is also a mentoring institution recognized by UGC under PARAMARSH. The college is spearheaded for the developments by Dr.N.R.Alamelu, Principal - an accomplished and passionate Academic-Administrator.

With the industries moving towards automation, with the technological developments in Big Data, Artificial Intelligence and Machine Learning; will learning from the classrooms be sufficient? How does Sri Ramakrishna Engineering College incorporate, in the curriculum, the fast changing technologies?

The institution makes sure that the students of all engineering courses get a basic knowledge about disruptive technologies like - Artificial Intelligence, Machine Learning and Automation. On account of this, the students are prepared to apply these technologies in their respective domains of engineering and be ready for the industries as per their expectations.

All the departments of SREC motivate the students to be continuous learners and self-learners. Many globally recognized universities and organization like -Stanford University, Google and IBM offer several online courses. Students are motivated to upskill themselves to study such online courses in addition to the online courses that are offered by Swayam. Once the students are certified, the institution helps them to get the credits transferred to their degree which greatly helps them to be ahead of others.

How does the college make engineering graduates to be innovative for problem-

solving? SREC has a state of the art innovation centre-CoIN through which the innovative and out of the box thinking of the students are given shape. The students working in this centre have achieved great success in AICTE-Hackathons and open innovation competitions of the industries. This centre has recently received 4-star rating from MHRD.

Dr.N.R.Alamelu, Principal

The laboratories of this institution are constantly updated. Do you love to develop mobile app-Android or iOS? Do you wish to fly drones with multiple applications? Would you like to focus on renewable energy, sensor technologies, cloud computing?

Yes! Centres of Excellence in all these domains and beyond have been established in the various departments. Industry collaborative innovation labs through Altran Technologies India Pvt Ltd., and GE Healthcare are functioning from the campus.

With such great infrastructure, another very unique strength of SREC is excellent, dedicated and experienced team of 300 members of faculty of whom 102 hold Ph.Ds. The practical knowledge and mentoring support by the faculty produces graduates from SREC who are getting excellent placement opportunities in their final year. The students with the wish to be entrepreneurs are guided by the AICTE funded entrepreneurship development cell (EDC) and alumni entrepreneurs of the institution with a SEED funding from the management.

The students aspiring for higher education are supported by the bureau

of overseas education of the institution. The alumni of this great institution spread across the globe, stand testimony to the success and service of this institution and they contribute very regularly to their Alma Mater.

SRIT - An Engineering College with a Difference

Technology in a standard billing system in a grocery store, requires the cashier to type what product is being weighed. But did you know that the students of SRIT have invented a smart billing device to identify what kind of fruit is being weighed and bill it automatically?

Have you seen a mehandi drawing machine that can draw a series of designs in a few minutes, making you spend less? Ever heard about a collar washer that cleans the dirt in your collars better than your washing machine? Many incredible devices have been developed by SRIT students in their Center of Excellence and these products have been displayed in International Science Fairs, garnering gold medals.

Sri Ramakrishna Institute of Technology (SRIT), is an Engineering College with a difference.

All the faculty who teach engineering in SRIT hold doctorates. Apart from the standard engineering courses, Mechanical Engg., Civil Engg., Computer Science Engg., IT, EEE and ECE, the college offers 3 academic track based system for the students to choose. They can pick one from Artificial Intelligence, Robotics and Data Analytics. The foundation of all these could be implemented in their curriculum. This system is unique and it is followed in University of Michigan.

When such added value is taken into engineering, the student gets the chance to upgrade his knowledge academically and technically. This makes it easier for him to apply such disruptive technologies when he steps on the industry floors.

"Additional and updated skill-set apart from academic brilliance is what the industry expects. SRIT is successfully implementing these expected skills in its students" says the Principal.

Dem onstration of concepts in the text books are made in the classroom itself, making students get a clearer understanding. All these lessons taken in class are stored in the college's internal portal. Smarter learning is thus made easily available.

For bettering the communication skills of students, every day after the class hours, language training is given to prepare the students for BEC examinations. This enables the rural students to get confident when they communicate. Similar specialized measures are taken to fine-tune their skills in Maths and Aptitude.

Instead of adding dozens of students under 1 mentor, only 5 students in a year is given to a faculty.

The development of the student is analyzed, and he/she is properly guided. A personal care is taken and the details are shared constantly with the parents. Illustrious alumni are brought to the college to provide guidance to the students and discuss

the expectations and newer innovations in the industry. The alumni also take part in conducting mock-interviews for the students.

"When a student comes to SRIT with a focus to educate himself and transform, we can assure that by the end of his study period, he will be finding himself as a professional and in a career", says Dr.M.Paulraj, the Principal of SRIT.

Sri Ramakrishna Dental College and Hospital

SRDCH- Helping a Million Pearly Whites SHINE

Sri Ramakrishna Dental College and Hospital is one of the first dental colleges in the city catering to the needs of Coimbatore Corporation. More than 500 dentists have graduated from this college. The institution which began in 2000 offering UG programs became a PG course offering institution in 2009.

Dr. Dinakar, Principal

location making it easy for students from other region to join in such a reputed institution. "We are the first dental college to be filled after Government Dental College, and the first to be filled among private dental colleges", says Dr. Dinakar, Principal, SRDCH. Majority of the faculty of the college are teaching here for more than a decade, so it makes them experts in knowing about the students' educational needs and cater to it accordingly.

SRDCH is the only dental college within the city limits. Being in the trifurcation among TN, Kerala and Karnataka, the college is in a prime location making it easy for students from other region to join in such a reputed institution. "We are the first dental college to be filled after Government Dental College, and the first to be filled among private dental colleges", says Dr. Dinakar, Principal, SRDCH. Majority of the faculty of the college are teaching here for more than a decade, so it makes them experts in knowing about the students' educational needs and cater to it accordingly.

says that their prime strength is their clinical material. The patient strength, Per day 200 patients walk-in for dental treatment and 200 senior patients also visit the hospital. Everyday 400 patients are treated in the OPD. Apart from that, the college has about 5 peripheral satellite centers around Coimbatore in rural areas. "We are the only people who can provide dental care to such a large population in Coimbatore", adds Dr. Dinakar. Another merit this dental college has is that it is the only institution where all staff function fulltime. SRDCH has about 100 teaching faculty, 120 non-teaching faculty who are well-experienced in their domain and guide the students; exposing them to theory and clinical training in classrooms as well as labs that are well equipped.

College of Physiotherapy - SRIPMS

Providing Precious Opportunities to Heal People

College of Physiotherapy- Sri Ramakrishna Institute of Paramedical Sciences holds the distinction of being the first private Physiotherapy College in Tamil Nadu. The College is affiliated to The Tamil Nadu Dr.MGR Medical University, Chennai. It is also the first Physiotherapy College to offer PG in 1998 with 3 specialties - Sports, Pediatrics and Obstetrics & Gynecology. "The need for well-trained physiotherapist is raising on a global level, especially in Sports. Many sports organizations have started clubs in many regions in state, national and international level. This opens a lot of opportunities for students who pursue physiotherapy courses" says Prof. B.Sankarmani, Principal of the college. "Our college is attached with Sri Ramakrishna Hospital which is a 1000 bedded hospital that has multispecialty wards. So students will have practical exposure. The syllabus is devised to be 70% practical, 30% theoretical, which helps the students to have an academic and practical application", he adds. This field, like Nursing is embraced much by women. 65% of the student ratio consists of girls-students due to the fact that women health fitness is also gaining an elevated interest. Many women health

and fitness centers have been opened in the recent years, conveyed Sankarmani. Syllabus that is prescribed meets the requirement of the healthcare needs and is updated to meet international standards. Better attention is given for the training period. The duration for clinical practices increases every year during the course, so that the training is more effective. What a student learns from theoretical case study, he practically witnesses it in clinical posting. As this is a fast growing profession, new techniques are introduced every year and the college helps the students to get that update. The placement is immediate for the students as they complete their Course. They can open their own physiotherapy clinic, join in a fitness centre, sports center, special health & fitness center, and a center for children with disabilities & autism. Opportunity is abundant in this field, recently 23 physiotherapists were needed for a single place. The alumni of the college are doing exceedingly well as physiotherapists in abroad. A proud thing to be shared about this college is that 25% of the physiotherapists in USA are from College of Physiotherapy-SRIPMS who are running their own clinic. 100+ in UK, 20+ in Australia.

Prof. B. Sankarmani, Principal

College of Nursing - SRIPMS

Noble Nurses Trained for the Nation & Beyond

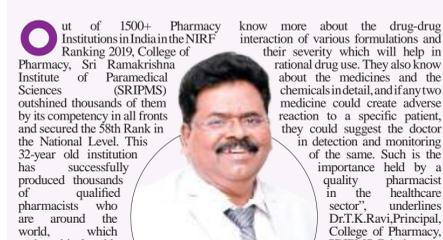

The College of Nursing, Sri Ramakrishna Institute of Paramedical Sciences (SRIPMS) is the first private Nursing College that was started in the Southern Region of the country, aimed at giving quality nursing service to people. When started in 1986, one of its primary focuses was to assist Sri Ramakrishna Hospital by providing well trained quality Nurses. Students of this institution, after a period of phenomenal training and academics, emerge as professional nurses, ready to fill the space waiting for them in hospitals which are not just in India but across the globe. The graduates from College of Nursing, SRIPMS are spread across the world in countries like USA, Canada, UK, Middle East, contributing immensely in the field of healthcare", says Dr.T.Nirmala, Principal of the college. The college offers B.Sc and M.Sc Nursing program. The latter has 5 specialties. It has announced that through Medical Recruitment Board, students who have been trained by private institutions can also get an opportunity to be Nurses in Government Hospitals. Apart from that, by clearing entrance exams held by Army and Navy, they can work for Central Government in institutions like AIMS and in defence medical departments. "Many of our graduates are in Central Government Jobs. A huge number of them are heading Nursing colleges as Principals. After successful completion, they can work as research associates. They can even go for Medical Coding". "During the training that we give here in the 4 years' time, the students become well-versed in academics, well-trained in practical application of their skills. We instill in them to be compassionate towards patient and remain dedicated to their profession. We train them to be confident individuals with good communication skills", highlights Dr.Nirmala. Not just for girls, the strength of men are needed in the nursing field. We do take Male candidates to study nursing. 20% of the students in the college are male students. The World is in need

of Indian Nurses due to their sincere and hard-working nature. We are proud to produce such graduates every year. Courses offered: UG Programs: B.Sc. Nursing (100 Seats); PG Programs: M. Sc. Nursing, Medical Surgical Nursing, Child Health (Paediatric) Nursing, Obstetric & Gynaecological Nursing, Community Health Nursing, Nursing (Mental Health (Psychiatric) Nursing), Doctorate in Nursing (Ph.D) - Child Health Nursing. Dr.T.Nirmala, Principal

College of Pharmacy-SRIPMS

Out of 1500+ Pharmacy Institutions in India in the NIRF Ranking 2019, College of Pharmacy, Sri Ramakrishna Institute of Paramedical Sciences (SRIPMS) outshined thousands of them by its competency in all fronts and secured the 58th Rank in the National Level. This 32-year old institution has successfully produced thousands of qualified pharmacists who are around the world, which makes this humble institution stand tall. "Today the need for quality Pharmacists is high. Pharmacy graduates will know more about the drug-drug interaction of various formulations and their severity which will help in rational drug use. They also know about the medicines and the chemicals in detail, and if any two medicine could create adverse reaction to a specific patient, they could suggest the doctor in detection and monitoring of the same. Such is the importance held by a quality pharmacist in the healthcare sector", underlines Dr.T.K.Ravi, Principal, College of Pharmacy, SRIPMS, Coimbatore. College of Pharmacy, SRIPMS offers M.Pharm., D.Pharm., Pharm.D., Pharm.D. (Post Baccalaureate) and Ph.D. programs. So far approximately 1700 B.Pharm graduates, 1500 M.Pharm graduates and 27 Ph.Ds have been produced by the institute. 35 out of the 40 faculty members in this college are Ph.D holders, which is a huge advantage for the college in providing high-quality pharmacy education. Drug related research has gone up and

Dr.T.K.Ravi, Principal

Sri Ramakrishna Advanced Training Institute

SRATI-Upgrading Individuals to Industry-ready Professionals

Sri Ramakrishna Advanced Training Institute (SRATI) is a center of excellence to develop skills that are needed for technicians like welders and plumbers in an Industry. Established in 2007, the institute offers 3 major courses - Welding, Plumbing and Non-Destructive Testing courses all these are oriented towards skill-development that is needed for a person to work in an industry. Since it is a skill-based learning programme, 10th, 12th, Diploma and B.E. Graduates could straight away enroll when the batch for the year is announced. Options are even available for an 8th Grade passed student. Every year students from different part of India and around the globe visit SRATI; some of them are sent by an organization for skill development while some find this facility through Government. Their training to be welder begins in a 5,300 sq ft state of the art welding lab that is designed and developed by Northern Alberta Institute of Technology, Canada. For plumbing, SRATI has a unique plumbing lab in a 4150 sq ft area that is built under the guidance of International Association of Plumbing and Mechanical Officials and Indian Plumbing Association. There is a Non Destructive Testing Lab at SRATI which cater to On the Job Training Needs. During the training, the instructors help the trainees to calibrate, inspect and evaluate equipment inch by inch. More than 3500 candidates have completed courses at SRATI. The institute provides certification that is recognised internationally. The institute is approved by TNSDC and has a MoU with the Government to provide skill training in Plumbing and Welding to the unemployed youth of the State. SRATI is one such institution that doesn't see the academic record alone but focus on transforming an individual into a skilled professional. K.R. Prasad, Director

K.R. Prasad, Director

Sri Ramakrishna College of Arts and Science

SRCAS - The College that Focuses on Future Skills

Sri Ramakrishna College of Arts and Science, a 32 year old institution, situated at the heart of the city, provides an excellent academic ambience for the students. The college stands unique among the Arts and Science Colleges for its innovative approach in all of its domains. It is accredited by NAAC since 2001, with Grade 'A' in its 3rd cycle. It is the first in the region to receive International Accreditation with 'A' Grade from Confederation of International Accreditation Council (CIAC). It is among the Top 200 Colleges in NIRF Ranking 2019, ranked among the top 100 in All India Ranking of Arts and Science Colleges by India Today and ranked 43rd in the top 50 Best Arts and Science Colleges in India by The Week in 2019.

The college is aware of the industry needs and has designed the curriculum accordingly. It has introduced a number of industry integrated courses. Digitalization is implemented in academics and administration. Students can enjoy ICT based teaching and learning in the campus. "We are no more an ordinary Arts and Science College; we consider it as an excellent training center for our students where academics, skills, sports and value system are equally focused to produce industry ready students and socially responsible human beings", briefs Dr.K.Karunakaran, Principal & Secretary, SRCAS. The competent, committed faculty members serve as mentors and provide individual attention to the students. The Principal said, "We have understood that a basic degree is not going to fetch high end jobs for the student community". He added, "The college adopts the recent trends in higher education and imparts knowledge from different streams; for instance, in Commerce stream, additional programs from ACCA, NSE, NISM, Insurance Institution of India, for Computer majors courses are offered by Google, IBM, IaaS, etc. Whatever the programme is, we make sure that students develop skill competency, communication, collaboration, creativity and

Dr. K. Karunakaran, Principal

critical thinking right from the first semester to the end. Our Outcome Based Education system is carefully designed to include all these skills with academics and at present it is going good". There is a flexible learning system at SRCAS. We learned from Dr. K. Karunakaran that students who exhibit excellence in academics are encouraged to pursue extra credit courses. During the study period at SRCAS, if a student wishes to have a high-end course from other foreign institutions, the college provides a wonderful opportunity through Twinning Programme. The college has signed MoUs with top universities in Malaysia and Singapore and sends students there for one full course. It widens their knowledge and helps them to get international placement opportunities. The college always extends its hands to the society in all its developmental activities. Every student is made to step into the society to apply their

learning on real time problems. The students of SRCAS are regular blood donors to all the leading hospitals in Coimbatore. They work to create awareness on Organ Donation. The college promotes research culture. Undergraduate students publish and present research articles. It has Innovation Centre and Fab-Lab with Management funding to assist to convert ideas into products and to apply for patents. Entrepreneurship Development Cell helps the students to become entrepreneurs. Sports is equally nurtured in the campus. Our students are in national/international level cricket, badminton, cycling, athletics, kabaddi etc. "By understanding the needs of the industries of the 21st century, the college has created a learning atmosphere in the campus to hone all the needed future skills that prepare the students to compete globally", Dr. K. Karunakaran ended.

Sri Ramakrishna Polytechnic College

SRPTC - For the Perseverant & Promising Protégés

Some kids are creative and develop a passion towards machines, electronics, computers etc. at a very early age. With exposure to what is evolving in the world, these kids are certain of what they want to be-engineers. For such promising young students, Sri Ramakrishna Polytechnic College is one of the best available destinations to begin their own path. The college is known for being one of the best in its category. While there are more than 500 polytechnic colleges in Tamil Nadu, there are certain merits that distinguish SRPTC. For 6 consecutive years, the college has been recognized as the best polytechnic college by Institution of Engineers. SRPTC has been selected as nodal centre for giving automobile training in Coimbatore by Mahindra Pride Classroom. Only 3 colleges have been selected in Tamil Nadu, and SRPTC is one among them. The College has an excellent product development cell, through which the students innovative side is given an excellent environment to develop. There are several industry tie-ups (MoU), for instance the college has a MoU with Roots Industries where students go and get trained for a specific period. At a very young age, their excellence is sharpened by the internships. The college is very clear that the students have to be skilled and competent technically. At present, there are 7 Diploma courses that are offered in this college - Diploma in Civil Engineering, Mechanical Engineering, Automobile Engineering, EEE, ECE, Computer Engineering and Instrumentation & Control Engineering. Flip the pages of newspapers, and you will certainly find this college students making their mark in not just education but in sports and extra-curricular programs too. For a student with 90% marks in 10th Exams 100% tuition-fee is waived. 25% tuition-fee waiver is given to students with 80% marks in 10th exams and the same is given for students who have excellent sports accomplishments. Graduating from SRPTC, a student can straightaway land in a job or if he/she wishes, then the college is ready to find them sorted in the two Engineering colleges - SREC and SRTT that are run by the SNR Sons Charitable Trust (under which SRPTC is run). Special Fees Concession is given to the students of the college if they wish to pursue higher studies.

Sri Ramakrishna College of Arts & Science for Women

SRCW - Empowering Women through Quality Education and Unlimited opportunities

Sri Ramakrishna College of Arts & Science for women enjoys the reputation of being the most preferred women's institution for higher learning in the city. With an academic heritage of over 29 years of existence, the college continues to fulfill the holistic educational needs required for the empowerment of women. Catering to the high demand from the girl students of the city and from around Coimbatore, the college works in two shifts i.e. 9 to 2pm and 12 to 5pm. The teaching faculty of this college are well experienced with commendable expertise in their fields. Excellent academic records and University gold medals awarded to the students stand as a testimonial. The aspirations of the students are understood right from the first semester and ample opportunity with guidance is provided, to help them to realise their dreams be it placement, civil services, coaching for bank exams, higher education etc. Study abroad programs are organized in order to widen the students' perspective. To bridge the gap between academia and industry a number of Certificate courses on Data Analytics, Search Engine Marketing, Cloud Computing etc. are conducted. MoUs are signed with industries to provide internship opportunities. 360 degree development of students is ensured through Yoga, self defence programs, Value education etc. Clubs and Associations provide a forum to showcase creativity and innovation. Courses on communication skills, Technical, soft skills, aptitude and leadership are offered right from the first year resulting in 98 to 100% placement for the job aspirants. Entrepreneurship Development Programs are conducted to develop Women Entrepreneurs. A campus-run student venture Yuvathi Angadi helps them to understand the business nuances and become studentpreneurs. Students who develop their own products are given chances to showcase their products in various other forums. Eminent Alumna are invited to interact with the students and mentor them. Sports Scholarships are offered to students who excel in their fields. Some study abroad programs are organized in order to widen the students' perspective. "We at SRCW contribute to social development by providing multifariously skilled graduates who add value not only to their family but to the nation as a whole"

Sri Ramakrishna Hospital - Institute of Allied Health Sciences

Crafting skilled Med-Technicians

The latest medical education institute from SNR Sons Charitable Trust is Sri Ramakrishna Hospital - Institute of Allied Health Sciences. It was started 3 years ago.

Allied Health Science professionals are medical professionals who perform healthcare services using highly technical equipment and contribute to the diagnosis, recovery and rehabilitation.

By emerging as a graduate of allied health sciences, a person can become a skilled medical equipment operating technician in many departments of a hospital in India and abroad. They get the skill and the experience to operate medical equipment like ECG, ECHO, Cathlab in a hospital. There are 10 UG Programs that are offered right now in the institute. For instance, when a student pursues B.Sc Operation Theater and Anesthesia Technology and graduates successfully, he becomes ready to assist medical personnel in operation theaters.

In Sri Ramakrishna Hospital alone there are 18 operation theaters and 3 cathlabs. The hospital is the first to have several advanced medical equipment. There are 3 Linear Accelerators in the hospital which one cannot find in any other institute except Adyar Cancer Institute or Mumbai Hospital.

Dr.P.Sukumar, Dean, Sri Ramakrishna Hospital said that there is a demand for promising graduates. Not just in India, the job opportunity is high around the world. All the courses offered

Dr.P.Sukumar,
Dean & Director

specialty departments, and students can get expert guidance from teachers and hospital technicians. Per day, they learn 4 hours theory and 4 hours training. This institute is under the guidance of Dr. Sukumar, Dean a veteran in medical field. Simply put; Sri Ramakrishna Institute of Allied Health Sciences is truly one among the best in this region.

here are of 4 years' duration.

It is made so because the countries in Gulf region and US recognizes only candidates with 4 years studying experience. In order to make the graduates reach the other sides of globe, The Tamil Nadu Dr. M.G.R. Medical University has made these programmes 4 years courses.

As this college is within the Sri Ramakrishna Hospital premises, the training exposure is high for the students. The hospital has 40 multi-

Courses offered

UG Programs

- ◆ B.Sc Operation Theater & Anaesthesia Technology
- ◆ B.Sc Cardiac Technology
- ◆ B.Sc Dialysis Technology
- ◆ B.Sc Critical Care Technology
- ◆ B.Sc Physician Assistant

Sri Ramakrishna Matriculation Hr.Sec.School, Avarampalayam. SRMHSS-AVP

This school is duly recognized by the Directorate of Matriculation School, Govt.of Tamil Nadu. The school has got smart-class enabled classrooms from K.G. to XII.

The school implements

Department of Science and Technology (DST), Govt. of India integrated computer curriculum for classes V to IX.

The school is engaged in preparing the students to be responsible citizen in future by practicing values on one hand

and make students technically competent in using technology for creating innovative models helpful to the society.

Currently, the school has 1550 students and 110 well-qualified Teaching Staff.

Sri Ramakrishna Matriculation Hr.Sec.School, Vatamalaipalayam. SRMHSS-VMP

This school started in 1990 is now a higher secondary school with a phenomenal strength of 1350 students and 52 teachers. It is no doubt that the growth of this institution shows the interest and commitment of the Managing Trustee and other Trustees.

Sri Ramakrishna Central School, Avarampalayam - SRCS

The School strives to inspire the children through holistic education. The development of mind, body and soul is essential in up-bringing of children.

The involvement of a child must have a balanced approach between academics and co-curricular along with training in personality and leadership development. One should learn to be an integral part of the community.

The school encourages this in all the children under its care. SRCS has classes from LKG to Grade 10.

Sri Ramakrishna Vridhrashramam - A Paradise for the Elderly

SNR Sons Charitable Trust, besides providing the A to Z of health-care and Education, is running a humble paradise for the elderly by the name Sri Ramakrishna Vridhrashramam in Siddhapudhur.

This old-age home came into existence in 1993. Vridhrashramam can house 50 inmates and at present 44 elderly are living a peaceful life there. The home has a tranquil ambience with facilities & infrastructure that are on par with the comforts one can find in a quality home.

Elders are admitted here after getting the consent from their children/guardians. As Vridhrashramam is a Trust-run home, the charges for food and accommodation are fixed at a very nominal rate.

Once in a month, the doctors from Sri Ramakrishna Hospital visit the elders there and give a thorough health check-up. Should

there be any special attention given, the seniors are brought to the hospital through the hospital's ambulance and given treatment at a concessional fee rate.

They are also given a limited amount of free- medicine for their ailments. Adding color to their life, the elders are taken out at occasions in the Trust's own

vehicles. All special occasions like Diwali, Pongal and New Year are celebrated in the Home's premises.

Fully prepared to ensure **SOCIAL DISTANCING** of all students and staff in college campus, hostels and transport facilities.
